INTRODUCTORY.

WE take pleasure in presenting to our patrons the GREENVILLE CITY AND DARKE COUNTY DIRECTORY. It has been compiled with great care and at a great expense, and we trust that upon examination it will prove correct and satisfactory. We acknowledge the uniform courtesy with which we have been treated by the business men of Greenville and Darke County, and in appreciation of the substantial encouragement given us by them, we, the publishers, respectfully dedicate to them this our first Directory of Greenville and Darke County. The book will be found invaluable in any live business house or to any business man in the county, besides the trouble it saves strangers in the city; and as a book of reference on general topics, it is not to be surpassed. It is our intention to print another Directory in 1887, more extended and varied in its contents, keeping pace with your rapidly growing city. We remain

Respectfully Yours,

RENTSCHLER & HAMILTON,

Publishers.

The Baker Patent Combined Desk and File Case.

Walnut. Desk proper, 42 inches long, 35 inches wide, has 5 drawers in front. File Case from desk upwards 46 inches high, 38 inches wide, 15 inches deep. All drawers in upper case have tin sides and bottom, thus economizing space and preventing warping; has two ink stands in lower middle drawer, and glass doors with patent Eagle Rock, highly finished, and no doubt the most handsome and convenient Desk in the market. Sold only by

JACOB BAKER, Esq., Greenville, Ohio.

THE FOLLOWING TESTIMONIALS ARE SHOWN, AND SPEAK WELL AS TO EXTERIOR.

I have examined the "Combined Desk and File Case" invented by the Hon. Jacob Baker, of Greenville, O., and in candor say that, for ornament, neatness of design, and practical utility, it is decidedly the best that I have ever seen. The desk commends itself, and the more it is seen and used, the more steadily it will grow in favor. — J. T. MAETZ, Super. Greenville Union School.

"It combines more good points than any desk I have seen, and would certainly be a grand acquisition to any office."

J. W. CRUCKSHANK, Clerk of Supreme Court of Ohio.

GREENVILLE.

GREENVILLE, the County seat, is beautifully located in about the center of Darke County, one of the richest and most productive agricultural and stock-raising regions of the State. Our deep, black soil is practically inexhaustible, and will yield, for decades to come, large returns for the labor of the industrious and thrifty farmers. The county is one of the largest, being twenty miles wide by thirty long, and all this large fertile territory is tributary to Greenville, making it an exceptionally good trading town.

The railroad facilities of Greenville are excellent, the Pan-Handle, the Dayton & Union division of the Bee Line, and the new Cincinnati, Van Wert & Michigan. The last named railroad will prove of great benefit to Greenville and largely increase her trade. With a population of between 5,000 and 6,000, Greenville is growing rapidly in every material interest, and there is not a more prosperous town in the State. No town the size of it offers better educational facilities. It has two fine school buildings, and as good teachers as liberal salaries will command. It has a telephone exchange, gas works, and a good fire department equipped with fine horses and two of the best steamers. A number of manufacturing interests are carried on, among them large wagon works, machine shops, three carriage factories, one large roller-process flouring mill, two planing mills, one furniture factory, three large saw mills, two tanneries, and some minor interests. The people of the county are progressive and the policy of the citizens of Greenville is a policy of encouragement and liberality toward all new-comers. Those who have capital to invest will find Greenville a desirable and convenient point for manufacturing, and the people are ready to extend all reasonable encouragement to the right kind of enterprises.

FRUIT TREES.

Buechly's Nursery is now two and one-half miles west of Greenville, but is to be moved one mile west of town as soon as arrangements are completed, where I expect to keep a full supply of general Nursery Stock. My aim will be to offer the best of the old varieties of fruit, with the addition, from time to time, of such new sorts as shall, after a fair trial, prove to be valuable. From the fact that I personally oversee my own grafting, planting, &c., I am enabled to warrant my trees strictly true to name. I earnestly invite the public to inspect my stock and prices before making purchases from abroad. E. M. BUECHLY, Proprietor.
